*"To everything there is a season
and a time to every purpose
Under the heaven"*

Dear Patients:

Sometime, somewhere, somehow during our training years there has been a patient—one patient—who has made nursing mean what it does to each one of us. He has come in many disguises, but he has made nursing worth all the tears and disappointments we have known.

He may have been a severely burned child in pediatrics who taught us to hope. He may have been a mother in obstetrics who taught us to love, or a stillborn who showed us sorrow and silent tears. He may have been a “hopeless” patient who walked out and taught us all about the will to live. He may have been a psychiatric patient who taught us to give of ourselves. He may have been a terminal patient who taught us death could be a blessing or that God is still the most powerful force on earth. He may have been a very ordinary patient who made us realize nursing is the finest profession in the world.

He may never know the important part he has played in our lives, or how firmly entrenched he is in our hearts and minds, but we know. It is to this patient that we gratefully dedicate our yearbook and our lives.

*With Sincere Appreciation,
The Class of 1968*

MESSAGE FROM MRS. KISTLER

To the Graduates

of the

Class of 1968:

Congratulations and Best Wishes to each one of you of the Class of 1968. Now, that you have completed your three year curriculum, do not stand still. Nursing does not, nor does the social, educational, or health milieu in which nurses learn, practice and determine their professional goals. Changes have taken place within and outside of the profession, changes that significantly influenced and expanded the dimensions of professional nursing. As Graduate Professional Nurses standing at the threshold of the twenty-first century, you have so many and varied opportunities to demonstrate leadership providing you retain the basic concepts of our past leaders. The Faculty and myself wish you Health—Happiness and Success for your future.

Mrs. Edythe G. Kistler, R.N., B.S.

MRS. EDYTHER G. KISTLER, R.N., B.S.

Director, School of Nursing

Mr. Charles S. Paxson, Jr.

MESSAGE FROM MR. PAXSON

Congratulations to each of you on the accomplishment of your goal to achieve the status of a Professional Nurse.

The last three years have been but prologue to the limitless opportunities you now have, to work where the action is, in the unending efforts to relieve suffering and improve the health of all of our citizens. The ills of man await your ministry. I know you can assume these responsibilities with great confidence based on sound knowledge.

You have our best wishes for success and happiness in your new career.

Chas. S. Paxson, Jr.
Vice President and Administrator

MESSAGE FROM
DR. CHARLES S. CAMERON,
PRESIDENT

At a time when science is equipping mankind with new incredibly effective instruments of destruction, it is heartening to have an opportunity to praise and congratulate 51 young women who have chosen to be partners in Medicine's grand mission of mercy. To each of you I offer my warm greeting and sincere wish for years filled with the satisfactions of ministering to the most basic of human needs—the easement of suffering and the restoration of health.

"May you look back on these three years as some of the most productive and rewarding of your lives.

During these years we have seen you mature from gangly, gawky teen-agers into sophisticated and poised young ladies. We are proud of you — Class of 1968."

Sincerely,

Isabelle Mosig
Isabelle Mosig

To Miss Finley:

A soft smile whenever we passed —

A mild spoken word offered when we needed it most —

A genuine interest which could not be dampened by our sometime forgetfulness —

A deep concern in our future as nurses —

And a sense of humor which could not be quelled by our glumness and frantic last minute efforts.

For these we thank-you.

NURSING SERVICE

The only constant thing in our world today is "change." We in Nursing; therefore, must be ever alert and attuned to meet the challenge which this change presents—to cope with the needs of man compassionately, understandingly, intelligently, and with love.

GATEWAY TO A NEW LIFE

Has it really been three years since we first passed through these doors? Who could have imagined the variety of experiences and rewards contained within. Each area had its own special personality . . . as varied as the students training there. Let us open these doors one last time as a student . . . that we might remember.

MEDICAL-SURGICAL

“Med-surg” means different things to all of us, but it provides one of the common denominators of our training years. This was where the first rewards and tears were felt . . . this was where the textbooks’ pictures of anatomy came to life, and the realization that no two people, or diseases, were exactly alike. In three short years it’s come to mean so much more than baths and beds. Care and caring do so enhance each other!

8TH INTENSIVE CARE UNIT

This is more than tubes and dressings, IV's running in on time. Behind this maze of life giving machinery there lies a human being. This is the reason for all our skill and knowledge . . . this is the need.

8TH BROAD

Chest tubes and Bailey bottles . . . This is chest surgery? How superficial! Here the "doomed" people of ten years ago are given another life. It would be difficult to describe the thrill of open heart surgery. Perhaps we should merely equate it with the look on the patient's face when she was able to walk the length of the corridor.

EMERGENCY WARD

Of all areas in our experience the Emergency Ward provided the best opportunity to really test our knowledge. Here we were organizer, mother, comforter, doctor's helper, and nurse. The shaking knees and trembling hands were replaced with assuredness of action and purpose. Unencumbered by paper work, we — the nurses — nursed.

OPERATING ROOM

Scalpel! Suture! Kelly! While in the operating room these commands haunted even our dreams. We realize all of us will not become "scrub nurses", but we'll care for pre-and post-operative patients as if their very lives depended upon it. They do!

REHABILITATION

Two weeks at another institution of learning . . . This prospect excited us, but only initially. The excitement of seeing inadequate bodies being taught to function again surpassed all expectations. The human spirit was observed at its apex. Young people, old people working together to regain the ability to enjoy the life now so very precious.

PEDIATRICS

The world is a unique place when viewed through the eyes of a child. We shared this view for twelve weeks in our junior year. At times it was frightening to realize the insight and understanding of the child and even more difficult to accept the utter simplicity. We're just a little more adult as a result.

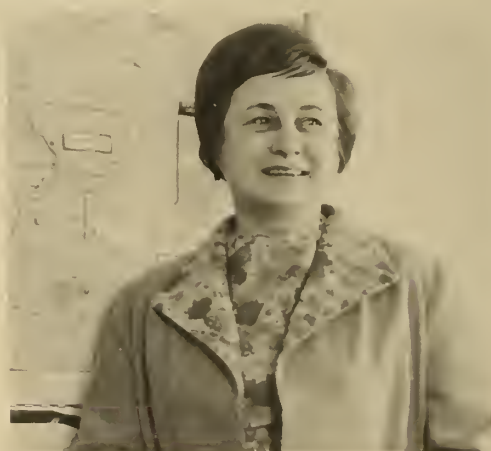

OBSTETRICS

The thrill of the miracle of birth is universal when viewed through the eyes of the junior student nurse. Perhaps it's just grand enough to remind us medicine is the great mender, but there is still one Creator. The look of pure love, escaping from a new mothers' eyes, has been captured and stored for future use in a tiny corner of our hearts.

PSYCHIATRIC DAY CARE

Psychiatric Day Care is a part of the Community Mental Health Program. It is situated on the 11th floor of the Hotel Philadelphia, and offers the students, on a pilot study, a brief experience in a day care setting.

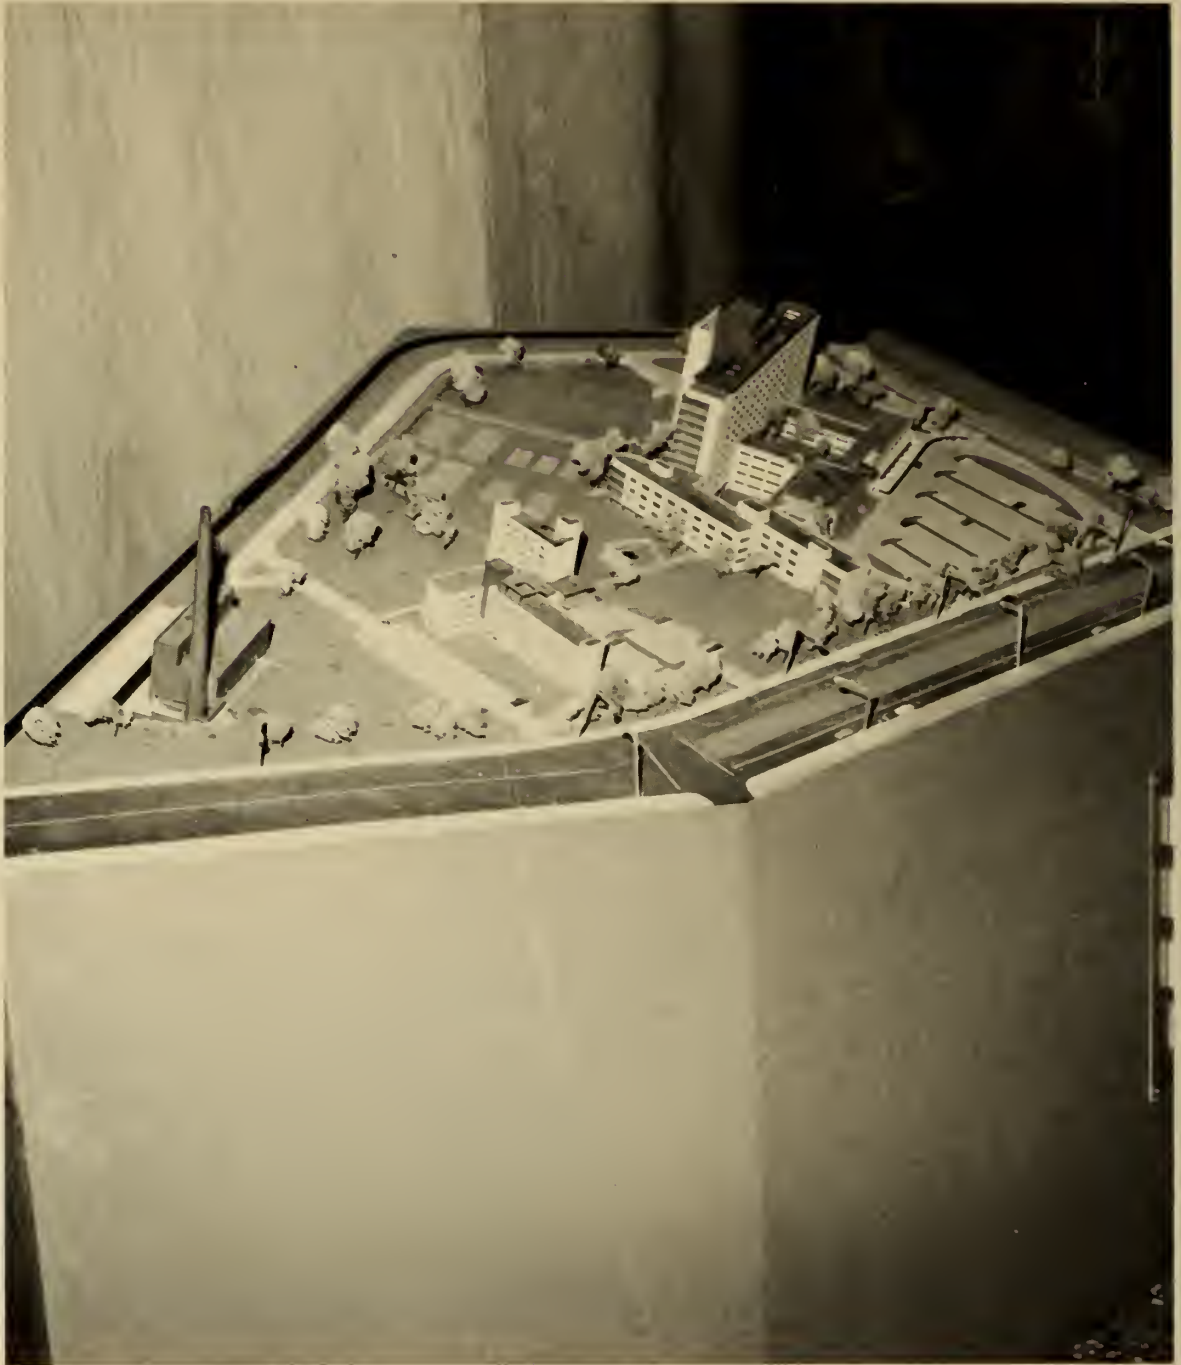

OUT - PATIENT DEPARTMENT

The Out-Patient Department provided the opportunity to realize continuous patient care. It inspired us to be ingenious so as to adapt treatments to conditions in the home. We were able to really comprehend preventive medicine by utilization of the limitless teaching opportunities.

EASTERN PENNSYLVANIA PSYCHIATRIC INSTITUTE

Only by extending ourselves in human contact do we help the patient meet his deepest need, "the need to overcome his separateness, to leave the prison of his aloneness."

What is the yearbook?

It's selecting a publisher, signing contracts, planning photography, and planning the layout. It's meetings and committees, discussions and disagreements, twenty - six different opinions, twenty - six minds working together.

It's a permanent record of three years of our lives, of the transformation from freshman to graduate. It's people we may never see again, experiences we could never relive. It celebrates the end of one chapter of our lives, and the beginning of another.

Here it is, the section that's us as we really are. Many things will be forgotten, but friends, frolic, and fun of dorm life will be remembered for many years. One day we'll laugh about the pranks and wonder why we were so eager to get out.

"I think my other lung just went."

"Dear?"

"That's it for this week."

"Just one more squirt, then I'll be ready."

"All together now."

"Only his hairdresser knows for sure."

"What-dya say?"

"Freud . . . ugh!"

"Love those parties!?"

"Out damn spot."

"I've heard that one before."

"The Sounds of Silence."

"Ah come on— who took the pills?"

"You must be kidding."

"And I'm not coming out 'til the voices stop."

"It all comes out in the wash."

"Cindy Dodge; AWAKE!?"

"Where's my piece?"

"Monkey see . . . Monkey do."

"It'll grow back!"

"Brownie points . . . she needs em."
